With Yellow Fever Is Gen. Duffield.

Germany Will Back Down In the Irene Bluff at Manila.

WAS DUE TO A MISUNDERSTANDING.

Washington, July 18.—(Special).—A telegram received this morning at the War Department states that Brigadier General Duffield is down with yellow fever at the Siboney hospital. Gen. Duffield comes from Detroit and is a personal friend of Secretary Alger. He commanded a brigade composed of the Sixth Massachusetts and the 33rd and 34th Michigan. He is a man well advanced in years and has been sick for a week or more with fever, which has developed into yellow fever.

Gen. Merriam Will Command The Fourth Manila Expedition.

San Francisco, July 18.—(Special).—Maj. Gen. Merriam has assumed command of the expeditionary forces. It is said, in spite of the immense amount of work that has been thus shouldered on this command, active preparations were continued on the vessels of the fourth Manila expedition. There has been a final inspection of the Pennsylvania and the troops designated for her are expected to embark to-day. The troops that are detailed for the Pennsylvania are the 1st Montana Regiment and the recruits for the 1st California. The South Dakota Regiment is to go on the Rio de Janeiro. It is doubtful if the Rio de Janeiro

MAJ. GEN. HENRY C. MERRIAM, U. S. A.

This gallant officer is now in command of the army posts on the Pacific coast. He entered the army from civil life during the war of secession and was captain of the Twentieth Maine volunteers. As an organizer of negro troops during the war he earned the special thanks of the government. After the war he entered the regular service, and was made a brigadier general last year. At the beginning of the Spanish war he was made a major general.

will be ready by Tuesday. The delay is in putting in the bunks. Men worked all day Sunday. There is so far no sign of the St. Paul, due from St. Michael. She is now a week overdue, but has probably had to wait for river steamers.

The Utah light battery of volunteers artillery received orders this morning to prepare and be ready and embark on the Rio de Janeiro without delay. It consists of 105 officers and men, Lieut. Wedgewood commanding. He is, however, too ill to go. No one has as yet been assigned to his place. They are about to get a new armament of four pieces. At present they have only two.

San Francisco, July 18.—(Special).—The transport Pennsylvania will probably not start for the Philippines until Wednesday.

London, July 18.—(Special).—The Chronicle says after the war Spain will probably be reduced from the technical status of a "Great Power" to which she was raised in 1893, when her legations abroad were converted into embassies.

OLD GLORY RAISED.

Above the Spanish Forts of
Santiago Sunday.

Formal Surrender of the City by
Gen. Toral—Articles
of Capitulation.

Santiago De Cuba, July 18.—Amid impressive ceremonies the Spanish laid down their arms between the lines of the Spanish and American forces at 9 o'clock yesterday morning. Gen. Shafter and the American division and brigade commanders and their staffs were escorted by a troop of cavalry and Gen. Toral and his staff by 100 picked men. Trumpeters on both sides saluted with flourishes.

Gen. Shafter returned to Gen. Toral the latter's sword, after it had been handed to the American officer.

Our troops, lined up at the trenches, were eye witnesses of the ceremony. Gen. Shafter and his escort, accompanied by Gen. Toral, rode through the city, taking formal possession.

The city had been sacked before they arrived by the Spaniards. At the palace elaborate ceremonies took place. Exactly at noon the American flag was raised over the palace and saluted by Capt. Capron's battery. At the same time all the regimental bands in our line played "The Star Spangled Banner," after which President McKinley's congratulatory telegram was read to each regiment.

The thirteenth and ninth regiments of infantry will remain in the city to enforce order and exercise municipal authority. The Spanish forces are to encamp outside of our lines.

The formal sanction by the Madrid government of the terms of capitulation Saturday unraveled the tangled skein of demands and counter demands between the opposing commanders, which threatened to end the negotiations and compel a return to arms. The agreement consists of nine articles.

The first declares that all hostilities shall cease, pending the agreement of final capitulation.

Second—That the capitulation includes all the Spanish forces and the surrender of all war material, within the prescribed limits.

Third—That the transportation of the troops to Spain at the earliest possible moment, each force to be embarked at the nearest port.

Fourth—That the Spanish officers shall retain their side arms, and the enlisted men their personal property.

Fifth—That after the final capitulation the commanding officers shall furnish a complete inventory of all arms and munitions of war, and a roster of all the soldiers in the district.

Seventh—That the Spanish general shall be permitted to take the military archives and records with him.

Eighth—That all guerrillas and irregulars shall be permitted to remain in Cuba if they so elect giving a parole that they will not again take up arms against the United States unless properly released.

Ninth—That the Spanish forces shall be permitted to march out with all the honors of war, depositing their arms to be disposed of by the United States in the future, the American commissioners to recommend to their government that the arms of the soldiers be returned to those "who so bravely defended them."

One Dog Less in Town.

The Acme Mills wagon heavily loaded ran over a small dog belonging to Walter Bell, col., on Campbell street this morning. He was cut half in two and the subsequent proceedings interested him two more.

Rev. Davall, pastor of the Methodist church at Earlston, returned home this morning.

RAILROAD PASSES.

Discussed by President Milton H.
Smith of the L. & N.

Admits that the Company Issues
Them to Judges and Politicians
Because it Helps Business.

Mr. Milton H. Smith, President of the Louisville and Nashville Railroad company, has a widespread reputation for bluntness, especially when he talks to those who occupy high places. Mr. Smith's testimony before the Interstate Commerce Commission in the matter of extension of time to comply with the Railroad Safety appliance act of Congress, is exceedingly interesting and characteristic. The testimony was so replete with information of legal and economic character that the senate ordered it printed as a public document, and Law Notes has a review of it in its July issue.

The Commissioners had not progressed very far in questioning Mr. Smith before the delicate subject of the depletion of railroad revenues by free transportation was reached. Mr. Smith stated that his road issued passes to the President and United States Senators. "We transported President McKinley and party to the Nashville Centennial free, but we got our money back by charging the people who went to see the President," he said.

Mr. Smith is of the opinion that the practice of issuing free passes is so thoroughly established that it can not be discontinued. "We may perhaps secure an increased traffic thereby," said he. When the commissioners desired to know how far the judiciary came in for free transportation, Mr. Smith referred the Commissioners to Edward Baxter, general counsel of the L. & N. road. The President stated, however, that he was sure that Mr. Baxter was of the opinion that it was not well to appear before a judge unless he has a pass if he wants one.

"If a Federal Judge wants a pass," continued Mr. Smith, "and asks for it, we give it. We do not press them on the point. They may not ask directly for it, but may have some friend to do it." However, only one or two hold such passes. Concerning the relations of the railroad and people, Mr. Smith said: "The people and the carriers are getting along well, and I say let it alone. They will work it out." The commission asked Mr. Smith if in the absence of regulation the traveler would not be compelled to pay whatever the road charged.

"No," said Mr. Smith. "What could he do?" was asked. "He can walk; he can do what he did before he had the railway." "He can hire horses and drive," interposed some one.

"Yes," said Mr. Smith.

Mr. Smith clearly expressed his opinion in favor of doing away with government regulation of railroads and leaving the matter to the carrier and the people. When it was stated that all railroad officials conceded that the law was being violated by some one, but all insisted that their roads stuck to its very letter, Mr. Smith said, "somebody is lying."

Law Notes, in concluding its review, says Mr. Smith is either fifty years ahead of his time or fifty years behind it.

Two Ships Go to Cuba.

Norfolk, Va., July 18.—(Special).—The Yankee left for Santiago last evening with ammunition for Watson's squadron. The Buena Ventura, one of the ships taken from Spain, also left with 100 colored laborers for Cuba, to repair docks.

One Trade Will Start Again.

Baltimore July 18.—(Special).—The ore trade between Baltimore and Santiago will be in full blast again inside of a month.

SICK

Of His Job Is Major General Shafter.

Wants to Return Home and Cool Off Soon as Relieved.

TALKING ABOUT PORTO RICAN INVASION.

Washington, July 18.—(Special).—The Naval War Board and Secretaries Long and Alger met this morning. They are reticent concerning the subject of discussion, but it was believed to be the disposal of the forces about Santiago and the details of the Porto Rico expedition.

Gen. Shafter has expressed a desire to return to this country as soon as he can be relieved, and it is thought he will be permitted to start home before the end of the present week.

Two regiments at San Antonio, Texas, have been ordered to leave Wednesday for New Orleans, where they will embark for Santiago to be assigned to the garrison there.

Spain is Satisfied.—Says

It Was an Honorable Surrender.

Madrid, July 18.—(Special).—The terms of the surrender of Santiago are regarded as honorable to Spanish arms. The troops will probably be sent to the Canaries or the Balearic islands, if found tainted with yellow fever.

Gen. Blanco still has 100,000 regulars and 40,000 volunteers under his command.

The Irene Incident---

Apologized For at Berlin.

London, July 18.—(Special).—A Berlin dispatch to the Daily News says:

"The Irene incident in Sabig Bay was probably due to differences between the German Navy Department and the foreign office. The former has been very self confident since the seizure of Kia Chou Bay. Possibly the Philippine squadron was instructed to display military dash and moved without diplomatic action. Nothing at present would be more disagreeable to the cabinet than friction with the United States." The dispatch adds that a letter from a German resident at Manila says the Americans are anxious above all to prove themselves gentlemen, and thus heap coals of fire on the head of the Spanish Governor, who in a proclamation described them as the scum of mankind, capable of any cruelty.

Third Regiment In It.

Will Help Whip Porto Rico.

Washington, July 18.—(Special).—The War Department this afternoon decided that Gen. Wilson's division of the Volunteers, including the First and Third Kentucky regiments, shall take part in Porto Rico invasion.

It is reported to-day that the war board had decided to increase this force to 40,000 men, owing to the difficulty of taking a well fortified city like San Juan.

Fell and Broke Her Arm.

Nellie, the little seven-year-old daughter of Mr. H. A. Williams, fell from a hammock Sunday afternoon and broke both bones in her left arm just below the elbow. A surgeon was hastily summoned and reduced the fracture and she is now resting comfortably.

Congressman Evan E. Settle, of the Seventh Kentucky district, has been declared the nominee of the Democratic party for re-election, without the formality of a convention.

A rumor that the most notorious woman in Europe, the Princess Chimay, was dead, has been promptly contradicted. No such fortune has befallen her disgraced relatives.

Jan. J. Corbett and Norman Selby, known as Kid McCoy, have agreed to fight a 25-round contest for \$20,000 about September 10. The fight will be pulled off by the Buffalo Athletic Club.

Rev. Jas. P. Hendrick, father of the ex-Attorney General, Jack Hendrick, died at Flemingsburg. He was seventy years old and had been pastor of one Presbyterian church for forty years.

Major Taylor, a colored wheelman from Indianapolis, carried off the highest honors at the Philadelphia National Circuit Meet Saturday. He won the national championship easily over Eddie Bald and Tom Cooper.

Eben Brewer, who had charge of all postal arrangements of the United States in Cuba, died near Santiago Saturday, according to advices received at the Post Office Department. He went from Pittsburgh. It had been reported that he was sick with malarial fever.

The Austrian warship Maria Theresa arrived at Havana Friday and was permitted to enter the harbor with some Russian officers who want to join the Spanish army. They want to study the war and will also have an opportunity to study the inside of American prisons in a short while.

The doom of the rivet, in iron work is at hand. Welding on a gigantic scale is superseding it. Elihu Thompson of Lynn, Mass., the pioneer of electric welding, has found a new and startling use for the electric arc. With it, he believes, he can weld the hulls of battleships in one piece, obviating all possibility of leaks and making them practically impregnable.

Mrs. Martha Place has been sentenced to die in the electric chair in New York for strangling her stepdaughter. She is the second woman upon whom the death sentence has been passed since the electric chair was introduced in New York. Maria Barberi was the first, but she was subsequently pardoned. Now New York is having a controversy as to whether or not a woman should be sent to death in the electric chair.

Advices from Honolulu indicate that the coast-defense vessel Monterey will take possession of the Caroline Islands before reaching Manila. While in Honolulu harbor Commander Lantz, of the Monterey, borrowed charts of the Carolines from Capt. Bray, of the Missionary bark Morning Star, and also consulted with that navigator regarding the harbors of those islands. Capt. Lantz promised to return the charts when he reached the Philippines.

The War Department is concealing the real facts about the yellow fever in the army. The news is censored and the public is not permitted to know the real extent of the epidemic. From unofficial sources it is stated that the disease has begun to spread and that the number of those stricken has been increased at an alarming rate. The number of deaths so far recorded has been quite small in proportion to the number ill.

Telegrams from Wichita, Topeka and other Kansas cities say that "Kansas girls who have attended school in the East ever since they were tots, many of whom are now at home on their vacations, are out in the harvest fields, riding reapers and binding wheat." Many men are off in the army and the wheat crop was heavier than usual and the labor problem became a serious one during harvest. The Post Dispatch says:

"Miss Ella Mayfield is one of the girls who has distinguished herself in the present crisis. Her father owns a big farm near Wichita and is wealthy. She was given every advantage in life and spent much of her time in the city. She attended school there, went in society there and became thoroughly urban in her habits. Her pleasing face and vivacious manner made her a general favorite. At the beginning of the harvest season this year she was visiting in Wichita. When the call came for volunteers in the wheat field she was one of the first to respond. She hurried home, doffed her urban finery and prepared for a season of hard work. In a cool shirt-waist, a linen skirt and a broad sailor hat—a 'hickory hat,' they would call it in the country—she mounted her father's reaper to which were attached four horses, and drove fearlessly into the ripening field. She has been at work ever since and will continue until the harvest is complete and the claims of Kansas womanhood have been vindicated. 'There is nothing remarkable about the matter,' said Miss Mayfield, with charming naïveté. 'I am only one of many. All over Kansas the wives and daughters of farmers are helping harvest wheat. It became imperative that somebody should do the work, and as men were not available what could be more natural than that the task should fall to the lot of the women?'"

It is possible that John F. Martin, blind drug clerk, who has for two years undergone heroic treatment at the hands of specialists, may have his sight entirely restored. Martin has been totally blind for years, suffering from chronic vitreous atrophy. This disease is said to be incurable. He became prominent two years ago as a substitute in experiments for Chas. Broadway Rous, a millionaire merchant, who is also blind, and who offered \$1,000,000 to any person who could restore his sight. Mr. Rous is suffering from the same disease that Martin is. Martin is now being treated by G.H. Cassidy, whose system is one of inhalation. The drugs are placed in a tube and inhaled at five minute intervals several times a day. The eyes are sprayed with belladonna.

Lieut. Sidney Johnson, of Company G, First Kentucky infantry, had a narrow escape from drowning in Chickamauga creek while bathing Saturday. He was seized with cramps, and was saved by Private Richard Clow after a hard struggle. Clow was in turn rescued by Private Owen Abot and Sergt. Mat Carroll.

A variety show is in full operation at Lytle, the postoffice station for Chickamauga camp, and the actresses are reaping a rich harvest. Quarters and dimes by the handful are thrown upon the stage when a taking patriotic turn is done by them.

He Remembered.
He rose to depart as the clock sounded eight.
And, getting his hat and his cane,
His wife sweetly murmured: "Now, don't stay out late,
Dear Charlie, Remember the Maine!"
With that somewhat startling injunction in view.
He has back home at ten with his net.
For should he stay later he very well knew
What a great blowing up he would get.

EXPRESS COMPANIES

Must Pay the Tax—Iowa United States Commissioner Make the Decision.

Ottumwa, Ia., July 18.—United States commissioner Hunter Saturday decided for the first time in any court, criminal or civil, the question whether express companies or shippers must pay the one cent tax to be attached to an express receipt. He held that the company must pay the tax under the law. He holds the cashier of the local office of the Adams Express Company, arrested on a charge of violating the revenue law, to the Federal grand jury. United States District Attorney Miles represented the United States in the hearing. Attorney for the express company will apply for a writ of habeas corpus before United States Judge Woolson, who will be asked to pass judgment on the Commissioner's decision early next week.

Uniontown's New Mayor.

The new Mayor of Uniontown, selected to fill the vacancy left by the resignation of W. C. Short, was chosen by the city council at the regular meeting Friday evening. The mantle of honor again falls on worthy shoulders, as Mr. R. W. Crabbs, one of Uniontown's most enterprising and progressive citizens, was chosen to govern the municipal affairs of Uniontown. The choice of the council met with the full approval and unanimous consent of all, and the city, under Mayor Crabbs' guidance will continue to grow and prosper in the future with that same gratifying progress which has characterized it in the past.

HONEY BEE.

Anxious to Get In.
R. W. Wolfser, of this city, who was rejected by Capt. Atkinson at Hopkinsville several days ago, where he went to enlist as a volunteer in the Third Kentucky, on account of a crooked arm and a slight deficiency in weight, has not yet given up all hope of joining the regiment and going to the front, according to the Uniontown Telegram. Wednesday he wrote to Congressman Clardy, requesting him to negotiate for the allowing of a dispensation.

RELIABILITY

is a quality some newspapers have lost sight of in these days of "yellow" journalism. They care little for truth and a great deal for temporary sensation. It is not so with THE CHICAGO RECORD. The success of THE RECORD rests upon its reliability. It prints the news—all the news—and tells the truth about it. It is the only American newspaper outside New York city that has its own exclusive dispatch boat service and its own staff correspondents and artists at the front in both hemispheres. It is the best illustrated daily newspaper in the world. Its war news service is unsurprisingly the best. Say the Urbana (Ill.) Daily Courier:

"We read the war news in the other papers, then we turn to THE CHICAGO RECORD to see how much of it is true."

Sold by newsmen everywhere and subscriptions received by all postmasters. Address THE CHICAGO RECORD, 151 Madison street, Chicago.

It Was Not Taught, But Learned To Ride By Watching.

There is a very popular monkey in the zoological gardens of the Prater at Vienna just now and she is much admired. Miss Maja has an exquisite bicycle, which she rides to perfection, imitating to a nicety all the movements of cyclists. She jumps into the saddle without touching the pedal, kisses her hand to every body, while she waits for the signal, then flits off at a splendid pace. From the wheel she jumps on a trapeze, and then on the wheel again before it can fall. When she has shown all her arts and graces she claps her hand, calling upon the public to applaud. She thanks prettily for applause by bowing and putting her hand to her heart. The monkey has not been trained at all—only made to look on while men and women cycled. She has taught herself everything without any one's help. When money is given to her she runs to her nurse, takes her purse and puts it in. It has been proposed to let her have one of the many cycling medals distributed in Vienna, but the societies refuse to give it to her.

DIED FROM THE SHOCK.

Mrs. Smithson Only Survived the Operation a Few Hours.

Mrs. Annetta Pace Smithson, wife of Mr. Jas. A. Smithson, of Pee Dee, died in Clarksville Saturday morning from shock, resulting from an operation performed at four o'clock Friday afternoon. She had been in very bad health for nearly a year and everything had been done to relieve her, the operation being performed as a last resort. The remains were brought to Herndon on the train Saturday and were interred in the graveyard on Mr. W. E. Adcock's farm, near Church Hill, Sunday. Mrs. Smithson was a daughter of Mr. R. C. Pace, of Herndon, and was a most excellent lady. She leaves a husband and several children.

In to-day's KENTUCKIAN we present to our readers the advertisement of one of Clarksville's best and most substantial businessmen—one that knows the value of printers' ink and is liberal in all things. We allude to Mr. Samuel Hodgson, proprietor of the old and established monumental works at that place. Mr. Hodgson's stock of monumental work is large and complete, embracing all the latest designs and he will take great pleasure in furnishing any information to those interested. He has sold some very fine work in this county and will at an early date put up some beautiful designs in Hopewell cemetery. He carries one of the largest stocks of goods in his line to be found in the South and never fails to please, both in workmanship and price.

Ed. Cunningham, of Henderson, eighteen years of age, was drowned between Evansville and Newburg. He had been having a time and fell off a barge.

WALPOLE'S MISFORTUNE.

Fined Heavily, Charged With Running a Blind Tiger.

W. P. Walpole, who formerly ran a butcher shop at Gracely, is in serious trouble in Trenton. From Gracely he went to Pembroke and thence to Trenton, where he has been operating what seemed to be a butcher shop. This morning he was put on trial charged with running a blind tiger and the proof against him was so conclusive that the court gave him a fine of \$100, which Walpole, in the absence of cash, will have to pay by work on the streets of Trenton. He has a large family and a wife almost blind, who will be left without resources while he is in the hands of the law.

Route is Changed.

The regiment of volunteers which Col. W. J. Bryan has recruited in Nebraska will not pass through Louisville. It was intended that part of the regiment should go South by way of Louisville, but for reasons of his own, Col. Bryan wanted to go through Nashville and Atlanta. The contract was changed to suit the Colonel, and the volunteers will go by St. Louis over the Illinois Central, the Nashville, Chattanooga & St. Louis and the Georgia Central.

Col. Caffee in Town.

Col. W. K. Caffee, of the Second Missouri, now in camp at Chickamauga, is in the city on a brief furlough, visiting his wife and two children, now visiting Mrs. H. L. McPherson, who is Mrs. Caffee's sister. Col. Caffee is from Carthage and is one of the best officers of the Missouri Volunteers, and a very accomplished gentleman. He will be here a day or two longer.

Masons.

Hopkinsville Lodge, No. 37, F. & A. M., will meet in stated communication in their hall, Ragsdale, Cooper & Co., block, this (Monday) evening at 8 o'clock. Work in the E. P. degree. Members of sister lodges are fraternally invited to attend. CHAS. E. GRAVES, W. M. J. B. GALBREATH, Sec'y.

CHERRY BROTHERS

Coming With a School Proposition This Week.

More About the Prospects for the Big Normal and Business College.

Hopkinsville really has a good chance to secure the Cherry Brothers School. Judge Leavell has received the following letter from the proprietors of the school:

BOWLING GREEN, July 14.
JUDGE BUCKNER LEAVELL,
Hopkinsville, Ky.
DEAR SIR:—We hope to be able to send a committee with a proposition to your city not later than the latter part of next week (July 20 to 23.) We have fully determined to have a permanent home with good school accommodations for our institutions.

Hopkinsville would make a capital place and is well located for a big school.

Very truly yours,
CHERRY BROS.

Writing upon the same subject Prof. L. W. Guthrie says in a letter to Mr. F. W. Dabney:

"Hopkinsville is on the right road to secure one of the best and largest Normal and Business Colleges in the South. I have seen Prof. H. H. Cherry and he endorsed what I have said to you.

Cherry Bros. desire a permanent location for their schools and I think Hopkinsville can furnish them with what they require. They now have an architect at work on plans for a building that will be required by the school and it will be large enough to accommodate 1000 students; also a boarding hall for that number.

The plans will be ready in a short time to be submitted to the council for action. Hopkinsville cannot afford to miss this opportunity of securing such a school."

There is a growing interest in the prospect for securing this college and the council will receive with satisfaction any reasonable proposition Cherry Brothers may have to make.

NOW OPEN

Is the Chalybeate Springs Hotel at Sebree.

I wish to inform the people of Hopkinsville and all others who wish to visit at Sebree Springs, that my house is now open, after undergoing repairs, to visitors; and furthermore, that I have special arrangements with train No. 52, going north, to stop regularly at the springs, to accommodate visitors. My rates range from \$5 to \$7 per week. Children under ten half price. Address,

G. L. DIAL,
Sebree Springs, Ky.

City Court Flatters.

Four cases were disposed of in the Police Court this morning. Walter Pettus, col., arrested for using profane language, was fined five dollars and costs. He satisfied the claim.

Geo. Martin, a Nashville negro, was fined \$15 and costs. He failed to pay up and was sent to the work house, where he will break rock for sixteen days.

MORE BURGLARY.

Mr. C. A. Brasher's Dwelling House Entered Saturday Night.

The dwelling house of Mr. C. A. Brasher was entered by a burglar some time Saturday night. The thief broke the transom over a cellar window and entering the cellar, made his way into Mr. Brasher's sleeping apartments, where he took a pocket-book containing \$2.25 in small change. Returning to the cellar he took about twenty pounds of lard and left without molesting any other valuables. No clew was left by which he could be identified. The burglar was evidently well acquainted with the premises.

Buck Leavell is the Latest.

In the bicycle fever has broken out in another fresh place. Judge Buck Leavell has caught it. He took a day off from his judicial duties Sunday and broke in a fine young wheel that had never been taught the gaits. The performance took place on South Virginia street in the afternoon. The women and children were removed to places of safety and the judge mounted his charger in a fearless manner and, after an hour or two victory was perched on his banner. Barring a few attempts of the wheel to lean down and run into the barbed wire fence by the roadside, there was no great difficulty in breaking it in. Judge Leavell was able to be at his office this morning, but various and sundry bruises about his person attested to the unusual manner in which he observed the Sabbath.

DEAN DESPERATE.

Took Ten Grains of Morphine With Suicidal Intent.

His Life Saved by the Prompt Action of a Physician, Who Relieved Him.

John Dean, a young man about 20 years old, a son of Sam Dean, attempted to commit suicide Sunday by taking morphine.

He had been filling his brother's place as engineer at the Cold Storage meat shop for some days, the latter being sick, but Sunday morning he refused to go any longer and his father told him he must go.

The boy left the house, went to a drug store and bought ten grains of morphine and returning home swallowed it. He then lay down on the bed and when questioned told what he had done. Dr. Jackson was sent for and after working with him for an hour or more succeeded in relieving him.

He is better at this writing, but has not yet entirely recovered from the drug he had taken.

Dean says this is his second attempt to take his life. On a former occasion he failed to take enough of the drug to have any effect on him.

Farmers Busy Following.

ers have put the land in excellent condition and considerable progress has been made toward preparing the ground for next year's crop. The indications are that a very large acreage will be seeded this fall.
